

COTI[™]2

One Platform. Multiple Configurations.
Designed to Evolve.

Meet COTI™ 2

A premium coffee platform designed for consumers, built for operators.

First impressions matter. COTI 2 is designed to stand apart from traditional vending machines with a modern asymmetrical profile, open LED-lit serving area, integrated aroma diffuser and contemporary coffee-bar presence.

Beyond appearance, COTI 2 brings together premium beverage quality, an intuitive touchscreen journey and practical engineering improvements that help operators deliver a more consistent coffee experience across busy everyday locations.

Built for the full experience

Every COTI 2 configuration starts with the same foundation: a better machine experience for consumers and a more practical platform for operators.

Premium design matters, but daily performance is what creates long-term value.

Designed for Everyday Performance

Premium design with a contemporary coffee-bar feel

Large 27 inch portrait touchscreen for a clear, engaging ordering experience

Open LED-lit serving area that improves visibility at the point of dispense

Integrated aroma diffuser to support a richer sensory experience

Freshly ground coffee, fresh brew tea and a wide range of speciality beverages

Durable, removable components designed to simplify daily routines

Practical service access and updated components that help support uptime

A common platform approach that supports multiple configurations

Choose Your COTI 2 Configuration

The COTI 2 family gives operators a clear path to match the machine experience, connected capabilities and physical footprint to the needs of each location.

COTI 2 Lite

Premium coffee experience with operational simplicity for locations where advanced connected capabilities are not required.

COTI 2 Vend

Connected configuration for workplace and semi-public vending environments where operators want more control, visibility and engagement.

COTI 2 Retail

Connected configuration for retail-focused environments where promotions, digital payments, loyalty and consumer engagement can help drive conversion.

COTI 2 Tower

Retail-focused tower configuration for high-traffic environments that need stronger visibility, a premium self-serve footprint and connected engagement tools.

COTI 2 Lite

Premium coffee. Simplified.

COTI 2 Lite is designed for locations where a premium coffee experience matters most and advanced connected platform capabilities are not required.

It gives customers the same modern COTI 2 design language, large touchscreen ordering experience and premium beverage foundation, while keeping the proposition focused on simplicity, reliability and ease of operation.

- Premium design with asymmetrical styling and a contemporary coffee-bar presence
- Clear 27 inch portrait touchscreen with a modern ordering flow
- Freshly ground coffee, fresh brew tea and speciality beverages
- Open LED-lit serving area and optional aroma diffuser
- Updated components designed to support easier cleaning and ongoing maintenance
- Ideal for customers who want a high-quality coffee experience without the full connected platform layer

One platform, multiple ways to serve different environments.

COTI™ 2 Lite does not include the connected Vendlive platform capabilities available on connected Vend, Retail and Tower configurations. For operators looking to launch promotions, loyalty, remote content updates and deeper analytics, the connected configurations are the recommended path.

COTI 2

Connected configurations for workplace and retail environments.

COTI 2 Vend and COTI 2 Retail bring the connected COTI 2 experience into environments where engagement, visibility and performance matter most. Both configurations are designed to help operators deliver a strong coffee experience while using connected tools to manage content, launch campaigns, support loyalty and understand performance.

COTI 2 Vend

Built for workplace and semi-public environments, COTI™ 2 Vend helps operators create a more flexible, measurable and engaging coffee point. Operators can update experiences remotely, launch promotions, manage pricing, monitor performance and better understand what is happening across their locations.

COTI 2 Retail

Built for retail-focused environments, COTI™ 2 Retail helps operators and site partners create a more dynamic shopper interaction at the point of purchase. It supports promotions, digital payments, branded experiences and additional revenue opportunities.

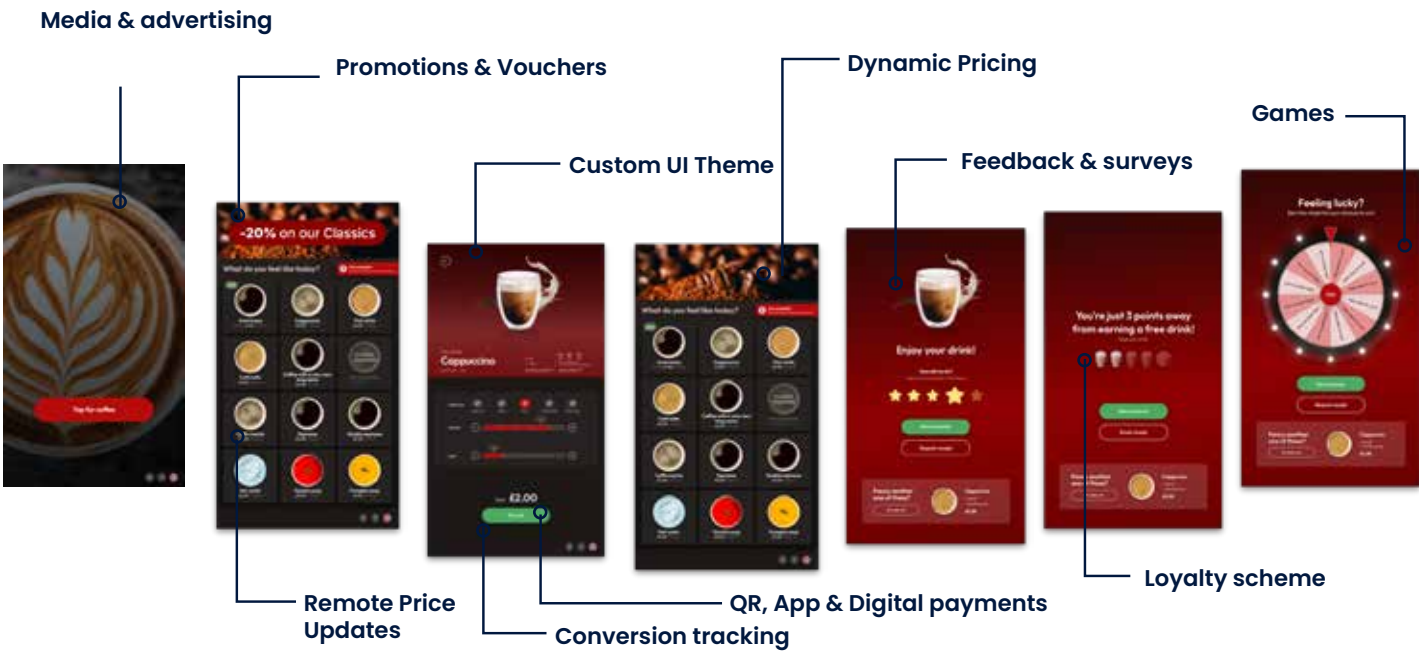

Connected Capability	Operator Value
Promotions and vouchers	Encourage trial, support campaigns and create reasons for consumers to return.
Loyalty programmes	Build repeat engagement and support customer retention over time.
Remote content updates	Refresh menus, visuals, campaigns and product messaging across machines without site visits.
Remote pricing and product management	Adjust pricing, product icons and selected configuration elements more efficiently.
Health monitoring and alerts	Identify issues earlier and support faster, more informed service response.
Analytics and reporting	View sales trends, engagement and conversion signals to guide better decisions.

COTI 2 Vend and Retail help operators turn coffee points into connected, measurable and engaging parts of their location.

The Connected Experience behind COTI 2 Vend and Retail.

The modern UI combined with VendLive give connected COTI 2 configurations the tools to move beyond a standard coffee transaction. Together, they help operators create more engaging customer journeys, update experiences remotely and make the machine work harder across sales, service and engagement.

- Retail Tools:**
 - Dynamic pricing & promotions
 - Loyalty programs & vouchers
 - Custom UI themes
- Consumer Engagment:**
 - Feedback & surveys
 - Gamification
 - Wallets
- Operations & Insights:**
 - Real-time analytics
 - Health monitoring
 - Remote configuration
- Integrations:**
 - ERP, VMS integrations
 - App integrayions via API

For operators, this connected layer helps drive sales, improve repeat engagement, reduce manual updates and create new revenue opportunities. For consumers, it creates a more modern, intuitive and engaging coffee experience.

360° Management Cloud

Manage your POS: Vendlive allows you to manage all your unattended retail equipment in the simplicity of an ecommerce store.

COTI 2 Tower

The COTI 2 platform, built for stronger retail presence.

COTI 2 Tower extends the COTI 2 platform into a more visible, retail-focused format for high-traffic environments such as grocery, convenience, forecourt and travel locations.

The COTI 2 Tower configuration is designed for settings where the machine needs to stand out, guide interaction and support a premium self-serve coffee experience in spaces with higher consumer movement.

- Highly visible retail footprint designed to attract attention
- Premium self-serve coffee experience for busy public and semi-public spaces
- Integrated tower format for cups, stirrers and sugar
- Large touchscreen interface to support fast, intuitive ordering
- Connected engagement tools that can support promotions, media, payments and loyalty
- Best suited for retail environments where customer attraction and store experience are key

Elevate Your Coffee Experience

Great coffee is the foundation. For operators looking to drive stronger business outcomes, selected COTI 2 configurations add a connected layer that turns the machine into a more active sales, engagement and management tool.

Connected configurations help operators launch promotions, build loyalty, update content remotely, support advertising, monitor performance and better understand what is happening across their estate.

Outcome	How COTI 2 Helps
Increase sales	Launch promotions, vouchers and targeted offers that encourage trial, conversion and repeat purchases.
Engage consumers	Use custom themes, feedback tools, surveys, gamification and loyalty experiences to keep the interaction fresh.
Create new revenue opportunities	Open the door to advertising, sponsored content and brand partnerships through the digital experience.
Improve uptime	Use health monitoring, alerts and remote actions to identify issues earlier and reduce unnecessary service visits.
Manage locations more easily	Update content, pricing and campaigns remotely across multiple machines without visiting each site.
Make better decisions	Track engagement, sales trends and campaign performance to understand what is working.
